

DGS UNMIG

The Directorate General for Safety National Mining Office for Hydrocarbons and Georesources is accountable for the activities of technical management, monitoring, supervision and environmental safety of upstream activities.

To carry out this mission the Directorate General for safety deploys a rich heritage of technical, administrative and policy know-how in the hydrocarbon sector that in 2017 celebrates its 60th anniversary from its foundation. Such commitment delivers excellent results in the field of prevention by the UNMIG Sections on Italian territory along with Chemical and Mineralogical Analysis Laboratories.

A renewed momentum in skills has reached a milestone in 2015 when DGRME (Directorate General for Mineral Resources and Energy) was transformed in the Directorate General for Safety- UNMIG - as a result of the transposition of DIRECTIVE 2013/30 / EU for safety of offshore activities, with the ultimate objective of integrating environmental and socio-economic aspects in the management of the underground mineral and energetic resources: hydrocarbon, raw materials and geothermy. In this framework the Directorate is committed to continuous action in monitoring safety objectives and sustainable development of upstream activities in Italy, in international relations to guarantee an exchange of best practices and in the development of regulations and cutting edge policy. In this renewed role, alongside traditional activities, also the dialogue with stakeholders, communities and citizens, statistical analysis, open data and applied scientific research have become strategic. From 2014, the Directorate created and coordinates a network of national research centres and universities specialized in the various aspects of safety and of relevant strategic sector.

Since 2014, in response to the growing importance and to the strong interest in the European and global scenario on the issue of the safety of offshore activities, DGS UNMIG considered strategic to start a series of partnerships with Universities, Research Institutions and Armed Forces. The partnerships set up till now produced positive effects in testing and improving skills in monitoring of offshore operations.

THE FUTURE OF THE PLATFORMS AND BLUE ECONOMY: DECOMMISSIONING, MULTIPURPOSE OR OTHER USES?

**29th MARCH 2017
2.00-6.00 p.m.**

Ravenna, Pala DeAndrè - Arena (Hall 4)

THE FUTURE OF THE PLATFORMS AND BLUE ECONOMY: DECOMMISSIONING, MULTIPURPOSE OR OTHER USES?

The speed of the energy transition towards a low-carbon economy represents a powerful challenge to design a future for offshore platforms and to follow paths of innovation towards a sustainable energy mix, capitalizing on the high technological skills acquired on oil and gas industry over the years. The conference aims to promote a dialogue among parties who wish to identify the best solutions to contribute cooperatively to a convergence of Green Economy and Blue Economy. In addition, in the second part, the event will offer an exceptional opportunity for knowledge and debate on the current technological developments for decommissioning of offshore platforms and on the opportunities for diversification, all within the framework of sustainable development of activities related to the marine environment.

2.00 pm REGISTRATION

2.30 pm GREETINGS AND INTRODUCTION

Franco Terlizze

Director General for safety of mining and energy activities - National Mining Office for Hydrocarbons and Georesources - Ministry of Economic Development

2.40 pm CHALLENGES AND OPPORTUNITIES: DIALOGUE BETWEEN THE PARTIES

Michele De Pascale

Mayor of Ravenna Municipality

Franco Nanni

President of Ravenna Offshore Contractors Association ROCA

Massimo Marani

Provincial secretary of the Filctem CGIL in representation of Filctem-Cgil, Femca-Cisl, Uiltec-Uil

Andrea Boraschi

Responsible for Energy and Climate Campaign for Greenpeace Italy in representation of Greenpeace, WWF, Legambiente

Pietro Cavanna

President of Hydrocarbons and geothermal Sector Assomineraria

Palma Costi

Councilor for productive activities, energy plan, green economy and the post-earthquake reconstruction Region Emilia Romagna

Chairman: **Fabio Fava**

Full Professor University of Bologna and Italian Representative BLUE GROWTH in Horizon2020 and Strategic Board BLUEMED Initiative Coordinator

3.50 pm COFFEE BREAK

4.20 pm TECHNOLOGICAL FRONTIER EXPERIENCES

Presentations by

Michele De Nigris

Director of the Department for Sustainable Development and Energy Resources RSE (Research Energy System)

Giuseppe Bortone

Director General ARPAE

Roberto Cimino

Vice President Technology Scenario and R&D Planning Eni Spa

Domenico Richiusa, Operation Manager Mainland Italy, EDISON SpA - **Sara Recchi**, Zooprofilattico Istitute "G. Caporale" of Teramo

David P Howell

Sales Manager Oil States Barrow (division of Oil States Industries)

Nicola Mondelli

Chief Operations Officer Engineering - Rosetti Marino Group

Matteo Babini

Commercial Manager MICOPERI SpA

Tobias Rosenbaum

BD Gas and Infrastructure Managing Director DNV GL

Andrea Bombardi

Chief Commercial Officer Energy & Infrastructures RINA SERVICES S.p.A.

Chairman: **Silvia Grandi**

Director VI Safety Division, BUIG, cartography and statistics - Director General for safety of mining and energy activities - National Mining Office for Hydrocarbons and Georesources - Ministry of Economic Development

6.00 pm CONCLUSIONS
